- Any Prescription Power
- Protective Carrying Case
- Shipping & Handling⁽²⁾
- U.S. Safety Warranty
- Meets ANSI Z87.1 Standard

Safety

This program includes everything you need to protect your employees from a variety of eye hazards in virtually any work environment. We offer the latest products available and use the most modern manufacturing methods. All prescription safety products offered by U.S. Safety meet the current ANSI Z87.1 Standard.

Savings

Passport Rx™ is economical, straightforward and complete. We have assembled the best products and services available, applied competitive pricing, and put it into one program that is guaranteed to reduce your costs and ensure OSHA compliance.

Service

Our service is backed by over 75 years of experience and a company-wide dedication to quality, timeliness and accuracy. Courteous, professional people at our home office and in the field will provide you with expert support and responsive service.

Simplicity:

"No headaches" is our promise to you. Three easy steps are all that is necessary to provide a hassle-free prescription program.

1. Contact your Broner Safety Representative.
2. Provide information regarding the location that requires service
3. Choose any additional options you plan to cover for your employees

(2) Standard shipping is first class mail. Alternate shipping methods may carry additional charges.

Broner Glove and Safety Prescription Safety Glass Program

Broner now has a great and simple Prescription Safety Glass Program. One price covers all. \$120 (\$95 glasses / \$25 fitting fee) will cover any lens and over 80 frames, sideshields, optician fitting etc. Safety Directors can easily budget for Prescription Safety Glasses and there is no guessing as to what costs will be.

Here is how it works:

- 1.) Tell your Broner Rep. that you are interested in the program.
- 2.) US Safety will contact you to get the program set up.
- 3.) Employee will take the order form to the local optician we work with.
- 4.) They will measure, fit, order and receive glasses for the employee.
- 5.) Broner will bill you \$120 along with the other items you order.

It is simple, provides a cost savings and we provide posters for each plant explaining where to go and what to do when you need Prescription Safety Glasses.
